Rofqa for Humanitarian Development

One eye on human
and other one on development

Introduction :

Here is the Al-Rafaqa Foundation for Human Development, and for the twelfth consecutive year, it has continued - by the grace of God Almighty and his success - its charitable journey in human care and the sustainable development industry, and throughout the Yemeni nation as a whole, it continues with the belief of those in charge of it that doing good represents the second pillar after the worship of God - Glory be to Him - by establishing His obligations, and it is an order that the Noble Qur'an expressly stipulated in the Almighty's saying: (And worship your Lord and do good that you may be successful).

With these two pillars - establishing the duties and doing good - moving in the horizon of this general and bright Quranic meaning, success and success for individuals and groups and then for the entire nation, which is achieved with it - in the end - satisfaction and happiness in this world and the hereafter.

Since the companions were very keen to advance its charitable and humanitarian mission in an optimal manner based on a clear vision, it decided to define its field of work in six programs represented in the following: food security and livelihoods - education and rehabilitation - protection and human care - water and environmental sanitation - shelter and housing - health .

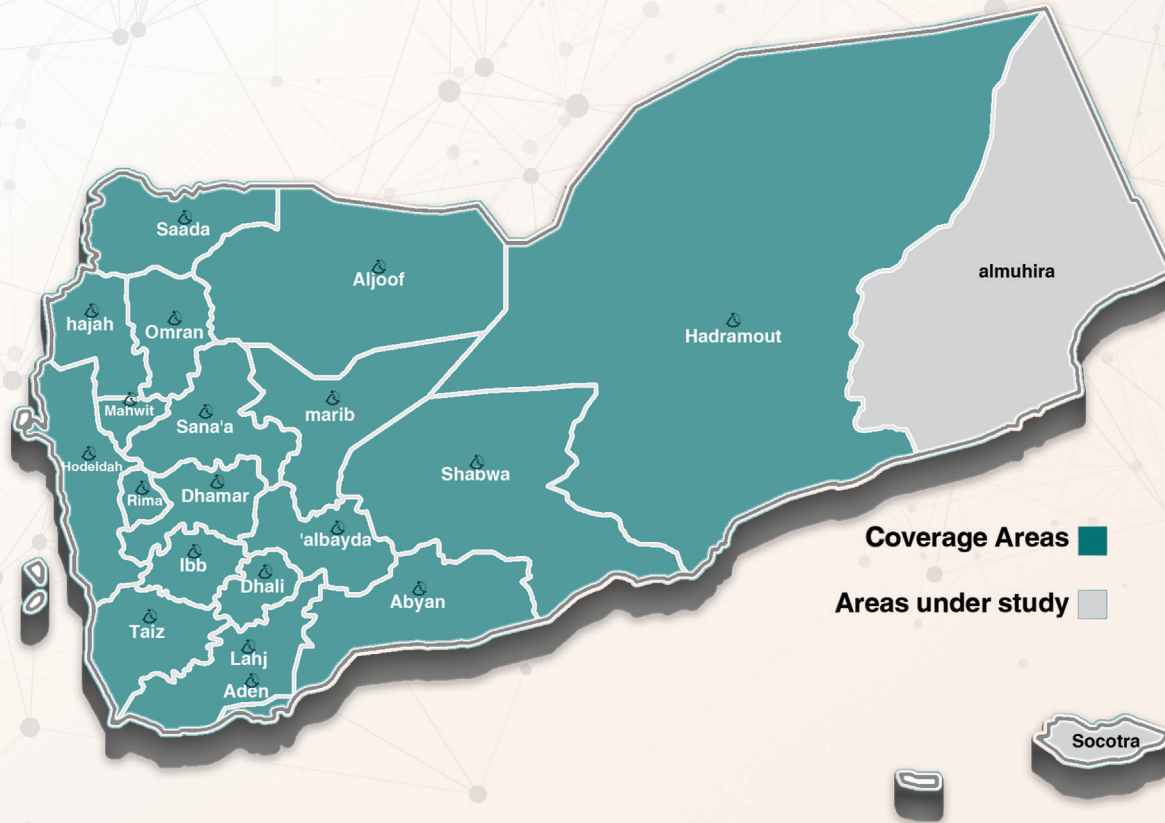

In this regard, we can only invite all Arab and Islamic organizations and associations that are concerned with charitable works and humanitarian services in Yemen in particular, and in the world in general, as well as all those who support and are interested in charitable and humanitarian works in general. Integrated actors in goodness, goodness and goodness, with the aim of contributing to helping their brothers the Yemeni people and relieving them from the scourge of the current grinding war that has eaten everything green and dry, something that embodies the values of cooperation, compassion and sympathy in what are great Islamic values. To that, he said: "The likeness of the believers in their affection, mercy, and sympathy is like the body if one member complains of it, and supplication for supplication."

This is God conciliator and guiding to both the way.

Fadel bin Ahmed
President of the Foundation

Map of development and humanitarian coverage

Classification:

A civic, social, developmental, humanitarian, non for profit foundation.

Establishment:

It was officially established in 2009 in accordance with a license from the ministry of labor and social affairs No (52/268).
